

THE PROJECT TEAM

A team of consultants was selected by competitive bid to fulfill the various contractual requirements of the California Regional Economies Project.

The contractor is Collaborative Economics of Mountain View, California. (See <http://www.coecon.com/>) Doug Henton is the President and a founder of Collaborative Economics. John Melville is Director and a founder.

The subcontractors to the Project are the following individuals and organizations:

Stephen Levy, Director and Senior Economist, of the Center for Continuing Study of the California Economy (CCSCE) in Palo Alto, California. (See <http://www.ccsce.com/>)

Jim King, President of JK Inc. in Sacramento, California.

Nick Bollman, President and CEO, and Trish Kelly, Program Consultant, of the California Center for Regional Leadership (CCRL) in San Francisco, California. (See <http://www.calregions.org/home.php>)

Order our new book, *Civic Revolutionaries: Igniting the Passion for Change in America's Communities*

WHO WE ARE: ADVISORS TO CIVIC ENTREPRENEURS

We seek out civic entrepreneurs who have the passion, vision, and commitment to blaze a new pathway for their community. They understand that a new kind of leadership is required to create great places, with thriving economies and world-class quality of life.

Over the last 15 years, we have worked with leaders in more than 40 regions to help their communities break from traditions that hold them back, and put them on a new pathway to success.

We work with senior executives from business, foundations, government, education, and community sectors to take specific steps that will create a breakthrough in how people think and act regarding their region.

WHAT IS CCRL?

The California Center for Regional Leadership is a statewide nonprofit organization established to support, facilitate, and promote innovative regional solutions for our major economic, environmental, and societal challenges, to help achieve a more sustainable California.

► Find CCRL's recent report on the field of [California's Regional Quality of Life Indicators](#).

► How can I learn about the [Civic Entrepreneur Summit](#)?

► How can my region and my particular community [create new businesses and jobs](#) that are competitive in the global economy?

► How can we help low-skilled people to [find training and sustained employment](#), with adequate income and benefits, in the new economy?

► How do we continue and redouble our efforts to [clean up the air and water, and protect open space](#) and our precious wilderness?
